From 2005 to 2007 Mr. Stroud was the CFO of Frontier Systems Integrators, a defense contractor headquartered in Northern Virginia. In August 2007, Entrepreneur Magazine recognized Frontier as the 17th fastest growing company in America in 2007. Mr. Stroud was the CFO during this rapid growth phase and was responsible for developing back-office systems to support that growth, manage working capital and develop processes to optimize profitability. As CFO, Mr. Stroud was responsible for financial and accounting operations in the company.

Currently Mr. Stroud is working with several fast-growing defense contractors to find growth financing and tailor operations within the companies to manage growth.

Formerly founder and Managing Partner, Santana Partners LLC, a Denver-based investment banking and capital advisory firm with a strong record of accomplishment in helping businesses attain the next level by helping them clarify their capital strategy requirements, developing business operations to support growth and new capital infusion. Santana then pinpoints solutions and sources for growth capital.

Until June 2002, Danny E. Stroud was President and Chief Executive Officer and Director of AppliedTheory Corporation. AppliedTheory, a publicly traded internet services industry pioneer with \$83 million in revenue, built, managed and integrated the increasingly complex Internet solutions that large enterprises and institutions rely on to survive in an online environment. The company enjoyed clients such as the Federal government and 28 State governments.

A telecommunications industry veteran, Mr. Stroud joined AppliedTheory from Veraz Ventures, Inc., a company he founded in 1998 to develop telecommunications opportunities in emerging markets. This venture focused on starting or growing wireless and Internet companies in Latin America in concert with local entrepreneurs. Veraz successfully support companies through a start up, growth and exit stage in Panama and El Salvador.

Previously, he was Vice President of Verio, a Denver-based company he helped found in 1996. Mr. Stroud was the Vice President of infrastructure deployment and operations as well as the principal executive in charge of acquisition of several Internet Service Provider (ISP) companies, completing 10 acquisitions in a year. He served as the interim president for five of the acquisitions until their integration into Verio.

From 1993 to 1996, Mr. Stroud was the VP of Network Deployment and Operations at Nextel and oversaw the deployment and operations of the nationwide digital mobile wireless network.

Prior to joining OneComm, Mr. Stroud was Network Director at Bay Area Cellular Telephone Company in San Francisco (Cellular One) and General Manager of an independent business unit of Pacific Bell Yellow Pages.

Mr. Stroud received his Bachelor of Science from the United States Military Academy at West Point in 1975. He was appointed from the state of Oregon. He received his Master of Business Administration from St. Mary's College of California in 1986.
